

## B SITE MAPS

The following Ordnance Survey maps (originally at 1:50,000 scale) are appended to give an impression of the degree of urbanisation at each of the UK telescope sites. In all cases, there are significant clusters of housing within ~2 km.

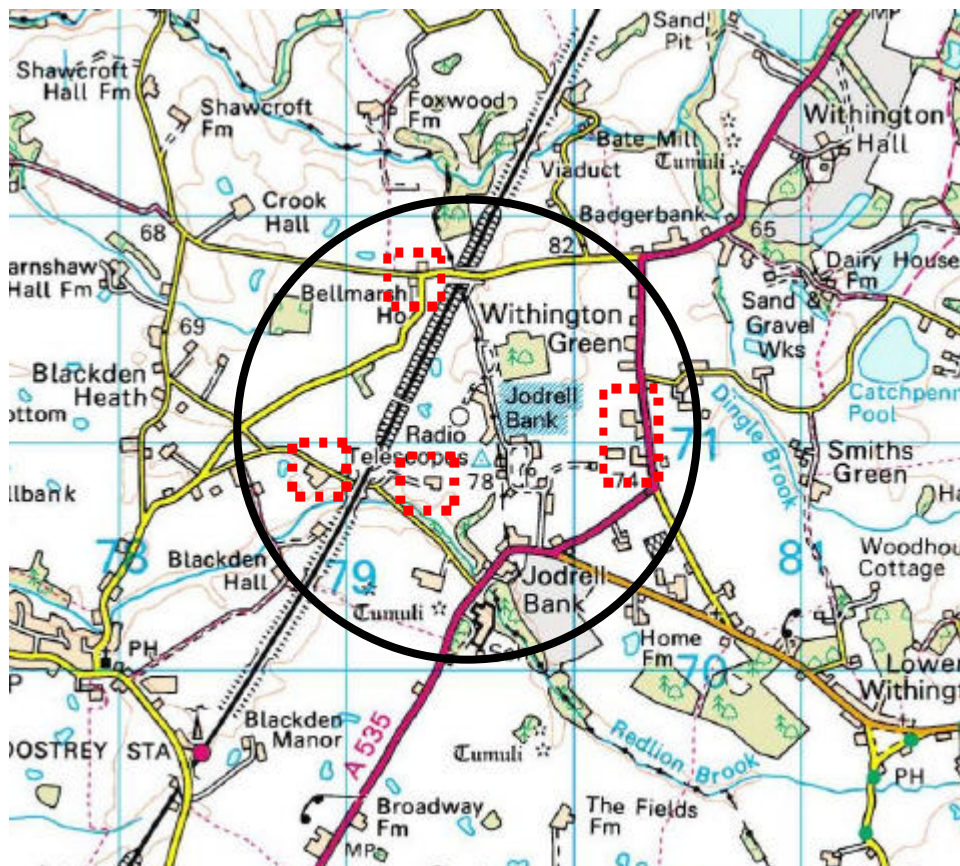

Figure B1: Jodrell area (1 km range indicated, showing local housing at ~500 m from telescopes)

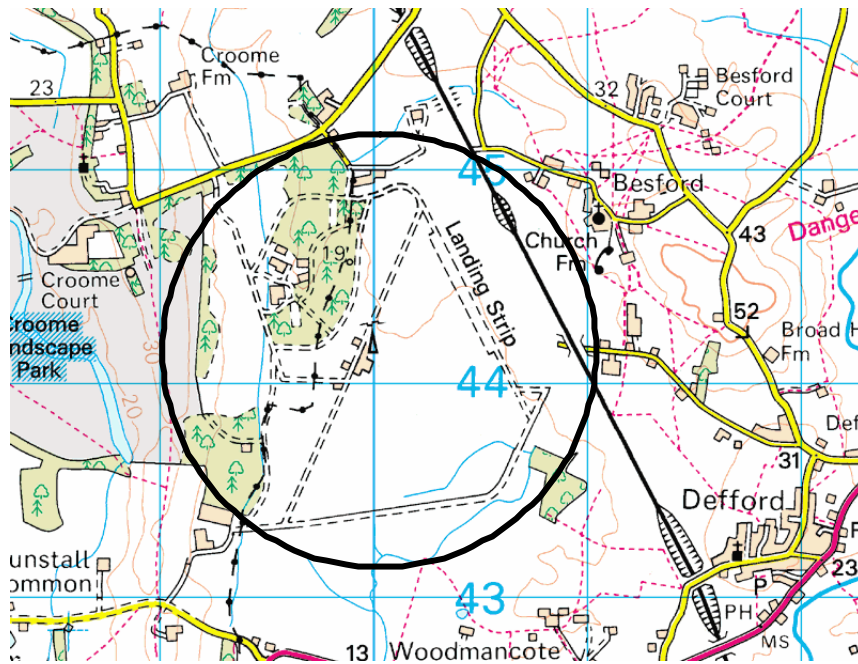

Figure B2: Defford area (1 km range indicated)

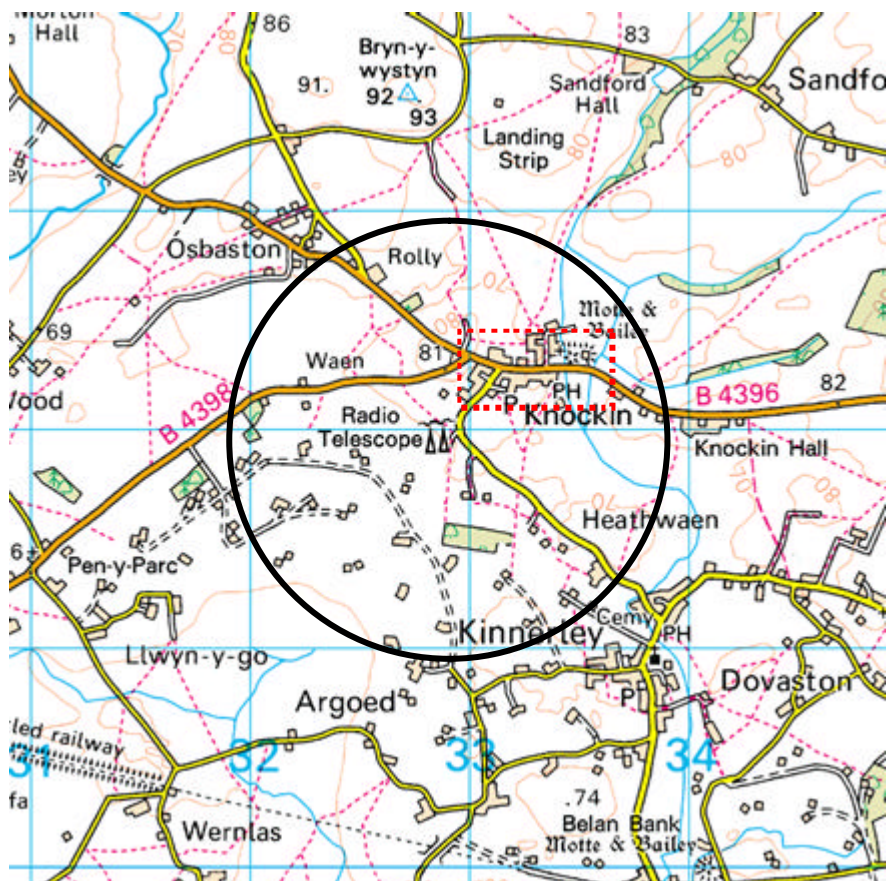

Figure B3: Knockin area (1 km range indicated, showing local housing at ~500 m from telescopes)

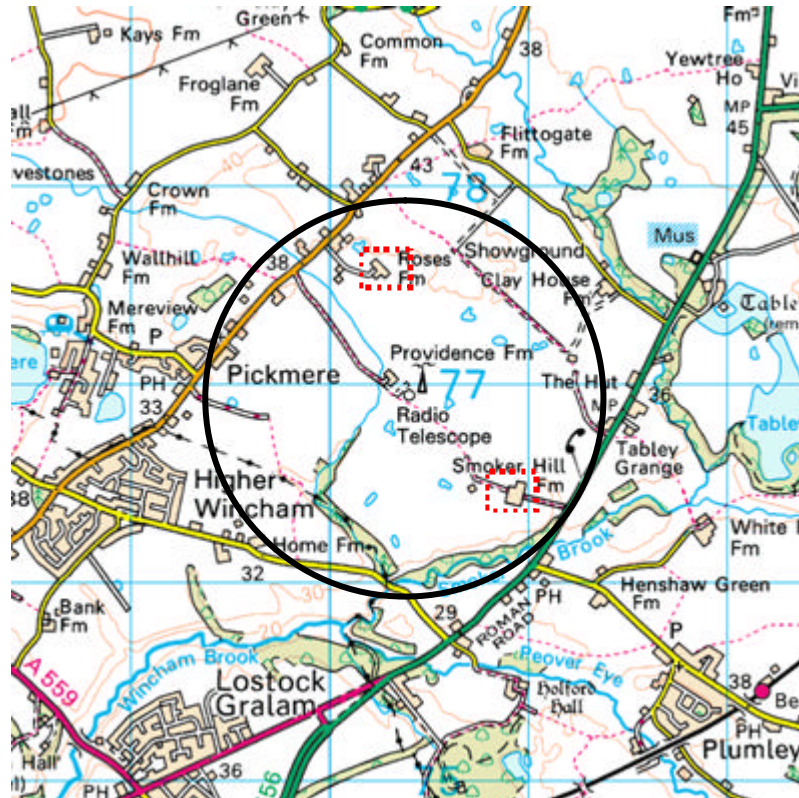

Figure B4: Pickmere area (1 km range indicated, showing local farms at ~500 m from telescopes)

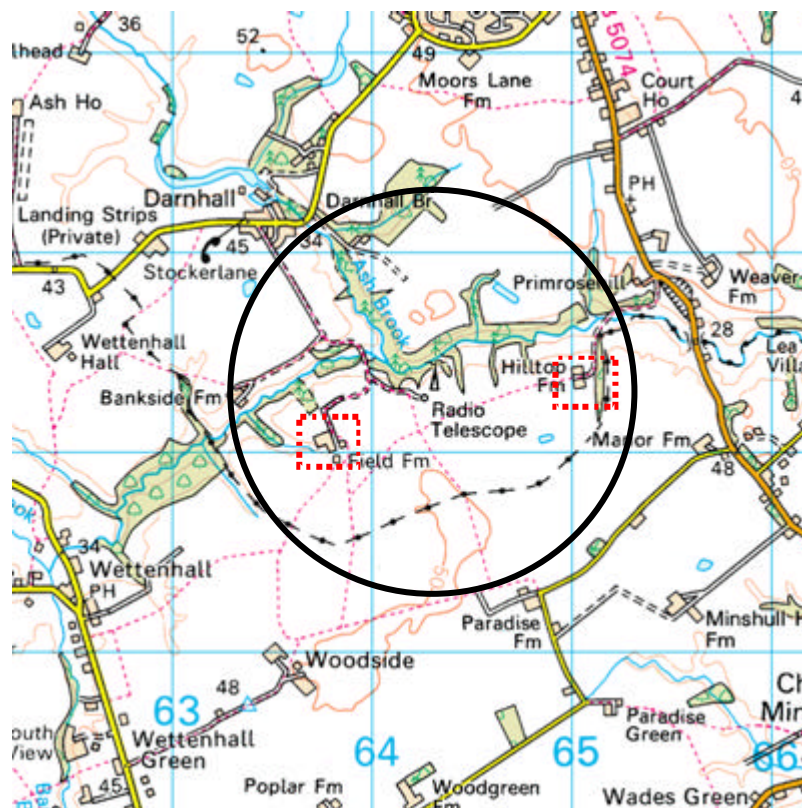

Figure B5: Darnhall area (1 km range indicated, showing local farms at ~500 m from telescopes)

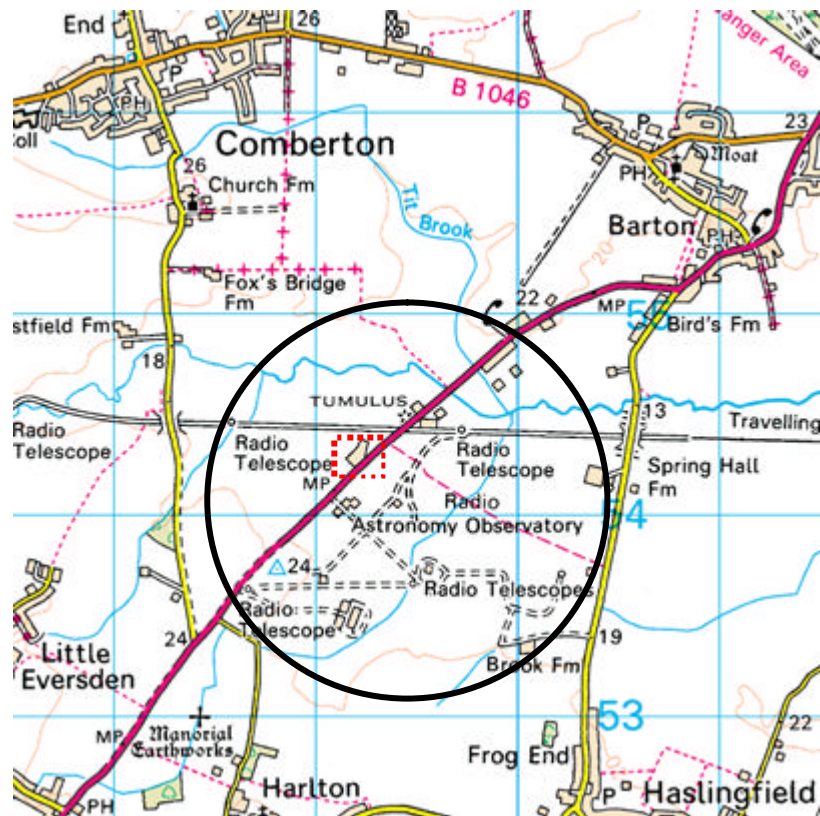

Figure B6: Cambridge area (1 km range indicated, showing local buildings at ~500 m from telescopes)
